

Starter Stiles: Reading Program

The *Starter Stiles Tiles* were once only available to teachers. Our *Starter Stiles Programs* are highly motivating, self-checking teaching aids written by Australian educators exclusively for The Learning Ladder. The books in each set increase in difficulty and children should start with book 1 and work their way up. The colourful tiles of the *Stile* tray, along with the attractive, imaginative books, introduce essential concepts in maths and literacy in a way that is fun and will ensure children don't become bored or discouraged. The unique self-checking mechanism allows children to work at their own pace and to check their own work without help from parents.

Starter Stile Pre-Reading

Fun and colourful pre-reading exercises include matching, opposites, things that go together, rhyming words, patterns and letter recognition.
